

NSU370

High-pressure Misting Disinfection System

An effective, easy to use misting system ideal for schools, workplaces and hospitality.

- ✓ Simple to use with high-pressure quick drying mist.
- ✓ Effective results every time by every user across a wide range of environments.
- ✓ High-performance pump and large capacity for extended use.

Numatic

Designed and specified for extended professional use by any user across all industries and environments for consistent results and long-life reliability.

• Increased Productivity

A consistent dispersion pattern for reliable disinfection results and even distribution increases coverage performance and dries in under 10 minutes.

• High-pressure

High-pressure mist creates a vortex effect, reducing particle speed, displacement of pathogens and increasing coverage across surfaces and touchpoints.

• Solving Cleaning Solutions

With the ability to sanitise large areas, quick-drying mist and consistent results, the NSU370 provides a simple solution to many of today's cleaning challenges.

• Performance you can Trust

Designed and engineered for extended use in commercial environments.

Whilst we recommend using TECcare® Control, the NSU370 is fully compatible with disinfectant solutions based on Quaternary Ammonium Salts or Hypochlorous Acid using appropriate dilution levels. Use of other chemical/disinfectant solutions may invalidate warranty. *

Compact to store

Easy to fill "no spills" tank

Specifications

Model	Capacity - Tank	Weight	Flow	Droplet size	Cleaning Reach	Hose length	Cable Length	Optimum Spray Distance	Max Pump Pressure
NSU370	5L	7.2kg	150ml / min	65-75 Microns	26m	2.2m	10m (Hi-Vis)	100cm	15bar / 217psi

Please note, do not spray electrical items such as computers, monitors or electrical sockets at close distances.

*99.999% effective in inactivating / destroying pathogens when using complete NSU370 System. System comprises NSU370 Mist Unit applying TECcare Control Disinfectant Solution.
